ELECTRIC VEHICLE CHARGERS

Industry forecasts predict an annual volume of 400,000 electric vehicles in North America by 2020. Plug-in electric vehicles offer improved fuel economy, lower emissions and strong acceleration with a quiet operation - all from a domestic energy source. Therefore, it is no surprise that automakers are bringing plug-in electric vehicles to the mass market.

Leff Electric offers the Eaton and Leviton lines of electric vehicle chargers:
Level 1 - 120 Volt Charging Equipment
Level 2 - 240 Volt Charging Equipment
Level 3 - DC Quick Charger

Contact us for Solar Carports and EVC.
