Avoid COMPLEX

Avoid this mess...

- slack and jamming during pull
- conductor damage
- separate pull for ground
- safety aspects
- more time, double the labor
- scrap and uneven lengths

Try ServicePLEX®

ServiceWireCo.
Manufacturing quality. Delivering service.

Easy Installation

- pulls like a single conductor *(no need to bunch cables before conduit entry)*
- one pull, includes ground
- low coefficient of friction
- consistent outside diameter
- even lengths

Everyone's moving to ServicePLEX®

Contractors who have tried ServicePlex® are reporting up to 50-70% labor savings over conventional pulls, saving them significant time and money.

Comes on one reel with the conductors *(and optional ground wire)* **twisted together, allowing ServicePlex® to be pulled like a single cable.**

Offers uniform pulling tension and allows for increased conduit fill – 53% compared to 40% for paralleling *(per NEC Chapter 9)*

Customized to your needs and is available in multiple sizes and conductors.

Stocked locally in 4/0, 350, 500 and 600 MCM sizes with 4 conductors and 1 oversized ground to meet all applications.
